

Curriculum - Daniel Gehlen

Personal Information:

Full Name:Daniel Gehlen | **Age:** 39

Desired Position:Junior Developer (focused on Java)

Location:Montenegro, RS, Brazil

Phone:[+55 51 98934-5497](tel:+5551989345497)

Email:harmonia251251@gmail.com

LinkedIn:<https://www.linkedin.com/in/daniel-gehlen/>

GitHub:<https://github.com/Daniel-Gehlen>

Professional Summary:

Junior Developer with hands-on experience in full-stack development, focused on enhancing Java and back-end skills. Knowledgeable in technologies such as JavaScript, React, Vue, Node.js, Docker, and Kubernetes, as well as experience with SQL and NoSQL databases. Seeking to contribute to innovative projects, with a strong willingness for continuous learning and teamwork.

Professional Experience:

Freelance Software Developer (Volunteer)

Start Date:Aug 2023 - Present

- Development of web and mobile applications using JavaScript, React, and Node.js.
- Creation and maintenance of RESTful APIs for back-end projects.
- Implementation of development environments using Docker and Kubernetes.
- Use of SQL and NoSQL databases for data storage and management.
- Application of software architecture and design concepts in full-stack projects.
- Implementation of unit and integration tests to ensure code quality and robustness.

Technical Skills:

Main Skills:

- **JavaScript** (experienced in front-end and back-end development)
- **React** (creation of dynamic and responsive interfaces)
- **Node.js** (development of RESTful APIs)

Secondary Skills:

- **Docker** (development environment configuration)
- **Kubernetes** (basic cluster implementation)

Skills in Progress:

- **Java** (focused on learning Spring Boot and Hibernate)

Programming Languages:

- **TypeScript:**Familiar with static typing and React project integration.
- **JavaScript:**Experienced in front-end and back-end development, focusing on interactive and high-performance applications.
- **Python:**Used for automation scripts and data analysis.
- **C#:**Development of desktop and web applications with ASP.NET Core.
- **Java:**Currently learning, with a focus on frameworks like Spring Boot.

Frameworks and Technologies:

- **React:** Experienced in creating dynamic and responsive interfaces, with projects available on GitHub.
- **Vue.js:** Familiar with reusable component creation and RESTful API integration. Used Vue in an interactive dashboard project for data visualization.
- **Angular:** Practical experience with SPA (Single Page Applications) development using modules, services, and routing. Implemented applications with projects available on GitHub.
- **Node.js:** Development of RESTful APIs and integration with SQL and NoSQL databases.
- **Docker:** Configuration of development environments to ensure team consistency.
- **Kubernetes:** Basic cluster implementation for container orchestration.

Databases:

- **SQL:** Experienced in data modeling and optimized queries.
- **NoSQL:** Familiar with MongoDB for unstructured data storage.

Cloud Services:

- **Google Cloud:** Familiar with services such as Google Compute Engine (GCE) and Cloud Storage for application hosting and data storage.
- **AWS:** Practical experience with EC2 for server hosting and S3 for file storage.
- **Azure:** Initial knowledge of Azure App Services for web application deployment and SQL database integration.

Languages:

- **Portuguese:** Fluent (native speaker)
- **English:** Advanced reading, Intermediate-Advanced writing, Intermediate speaking, Intermediate-Advanced listening.
- **Spanish:** Intermediate reading, Basic-Intermediate writing, Basic speaking, Intermediate listening.
